

conducting this research, it is important to note that the data must be accurate and reliable. It is also important to set clear research objectives and methodology to ensure the validity and compliance with the IMA 2022 criteria. In addition, it is crucial to consider the ethical implications of the research and to follow strict guidelines to protect the privacy and well-being of the participants.

DEFICIENCIES

NSF is a suspension status indicator that occurs due to insufficient funds in budget accounts under a given budget control. Budget items from a single account code, such as 1947 (Employee Payroll), can

Insufficient funds in budget accounts

are suspended if there is no available balance in the account. This may occur if the amount of activity in the account exceeds the available balance.

Activity in the account is suspended until the balance in the account is restored. If the balance is restored before the end of the period, the activity is restored.

If the balance is not restored by the end of the period, the activity is suspended until the end of the period.

The NSF status is indicated in the account code field of the budget item.
