Scrimshaw Crayon Art

Scrimshaw is the technique of carving designs on the surface of bone, ivory, or baleen. Create scrimshaw-inspired art by etching designs on paper!

Materials Needed:

White paper, crayons, toothpick or paperclip.

Caution Toothpicks and paper clips can be choking hazards. Closely supervise children during this activity.

Instructions:

Step 1:Cut a piece of white paper in half.

Step 2:Prepare your paper:

For Black-and-White A: Color the paper with black crayon. Fill in all the white spaces, so that as little white as possible shows through the black.

For Ranbow Art: Cover a sheet of paper whitifferent colored crayons. Use one color, or use several and make a design. Then completely cover the paper with black crayon, so that no colors show through.

Step ii: Make a designUsea toothpickor paperclip toetch a design into the blackcrayon. Experiment with different patterns. If you colored the paper with rainbow crayons first, the colors with rainbow crayons with rainbow crayons first, the colors with rainbow crayons with rainbo

Hint: For young children, prepare the paper in advance. Older children may enjoy coloring the paper before making their designs.
