2. GUESTS

- A. Mike Humphrey Director Benefits Statewide Human Resources
Accompanied by Cindy Wild, UAF Human Resources: Wellness Program and Retirement Options

Mike Humphrey informed the Council that employees will receive a letter from President Hamilton regarding the Wellness Program. Employees should expect to receive several communications encouraging all to fill out the health assessment form; October 17 will be the kick off date. The university hopes to see by the end of three years, three dollars saved for every dollar invested in the program. Mike Humphrey encouraged Council members to contact unit constituents to encourage all to fill out the health assessment form. The purpose of the form is to collect demographic information. The university will not see the information, but will be aware of employees that complete the form. As an incentive, employees that return the form will receive a \$100 credit off of their deductible. He stated that the form may also be

completed online. He stated that individuals that are not eligible for this year's plan are recent hires and employees who chose to opt out this year. Mike Humphrey requested that employees contact his office for more information, 907-450-8226, mike.humphrey@alaska.edu

B. Stephen B. Jones

The Chancellor welcomed the Council members back and commended all those that helped out with the fall 2006 orientation. He stated that he has heard nothing but positive feedback about the orientation. Chancellor Jones reminded the Council members about his upcoming 29 September Convocation where he plans to address issues that are important to the university. He will speak on where he sees the university heading in the next five years. He reminded Council members to get release time from supervisors to attend the Convocation. Chancellor Jones reminded the Council that the recent sky rocket in fuel costs will hit the university hard. He declared that we are looking at a 3.6 million dollar hole across UA. He stated that we have to increment our fuel cost by buying fuel oil, so it is a double whammy for UAF. He urged the Council members to contact legislators to ask for help by calling or writing a letter. He stated that because the cost of fuel has risen the state is looking at a billion dollar surplus. Chancellor Jones inform the Council that student enrollment for fall was flat, because of troop deployment, disappearing numbers in terms of retention, and students from the lower forty-eight not enrolling at UAF. The Chancellor announced that the 2010 strategic plan should be available by the end of the semester. The Chancellor stated that he is looking forward to continuing working with the Staff Council.

C. Martin Klein, Associate Director Transportation and Parking

Martin Klein reported to the Council that Parking has a budget of about \$1.6 million dollars. He gave details about how parking revenue is generated and how it is used. He stated that there is a press to pay for shuttle rides. He stated that there are an increased number of parking meters around campus; the green top meters are for visitors. He informed the Council that a Silver Decal parking lot is located in the Bunnell parking lot. You can park in any spot in this lot, but only if you have a silver decal. He stated that Parking Services is working with the City of Fairbanks to allow Polar Express cards to be used at the downtown parking garage. He informed the Council

having a unified voice. He stated that President Hamilton's proposed change to the senior citizen tuition waiver is an item for discussion at the BOR meeting scheduled 20-21 September. He stated that the ASUAF students are protesting the changes. He informed the Council that Staff Alliance is looking into creating a motion to propose a university employee tuition waiver after retirement.
